Commissioner:

In compliance with the duty of disclosure under 37 CFR §§ 1.56, 1.97 and 1.98, and in accordance with the provisions in the Manual of Patent Examining Procedure §§ 609 and 707.05(B), enclosed with the electronic filing of this Information Disclosure Statement is an IDS form (PTO Form SB/08a) listing references that are known to applicant. In accordance with 37 C.F.R. 1.98(a)(2), only "pdf" copies of references *other than* U.S. patents and U.S. published applications are enclosed with the electronic filing of this Information Disclosure Statement.

It is respectfully submitted that this filing is made during one of the periods described in 37 CFR § 1.97(b)(4), a Request for Continued Examination having been filed on July 26, 2010, and, according to the USPTO PAIR System as of the date and time of this filing, no Office Action having yet issued; no fee is therefore required.

Due to electronic filing limitations (for example, limitations regarding the number of references that may be listed on a single PTO Form SB/08a, and limitations with respect to the number of cited references that may be attached to a single electronic filing), the above-mentioned Information Disclosure Statement filing may be done in multiple parts, the multiple parts to be taken as one; each part of the multi-part filing to be accompanied by a copy of the Transmittal Letter for this filing, a copy of this IDS Transmittal Letter and a copy of (each of) the PTO Form(s) SB/08a.

It is respectfully submitted that some of the listed references (for example, U.S. Patent Document Reference Nos. 13-16 and 18-19; U.S. Patent Application Publication Document Reference No. 2; and Non-Patent Literature Document Reference Nos. 1-2 listed on the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement) are U.S. patents or co-pending U.S. patent applications that have been or will be commonly assigned to the entity to which the above-referenced U.S. patent application has been or will be assigned.

It is respectfully submitted that some of the listed references (for example, U.S. Patent Document Reference Nos. 1-12 and 17; U.S. Patent Application Publication Reference No. 1; Foreign Patent Document Reference Nos. 1-3; and Non-Patent Literature Document Reference Nos. 3-7 and 28-29 listed on the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement) were cited by Office Actions issued for patent applications that have been or will be commonly assigned to the entity to which the above-referenced U.S. patent application has been or will be assigned.

It is respectfully submitted that some of the listed references (for example, Non-Patent Literature Document Reference Nos. 30-50 listed on the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement) are Office Actions issued for patent applications that have been or will be commonly assigned to the entity to which the above-referenced U.S. patent application has been or will be assigned.

While this Information Disclosure Statement, and the references and documents cited in the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement may be "material" pursuant to 37 CFR § 1.56, submission of this Information Disclosure Statement and citation of the references and documents listed in the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement are not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists.

It is respectfully requested that the listed references and documents be considered in the examination of this application and identified on the list of references cited on the patent issuing for this application. Applicant also requests that an initialed copy of the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement be entered in the application file and returned to Applicant with the next communication from the office in accordance with MPEP §609.

A list of patents and publications is set forth on the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement.

Respectfully submitted,

August 18, 2010
